### History

#### #1 - 2010-06-25 14:50 - Chris topher

For other fields in All Configuration the value is cut off and dots are appended.

But we don't want to have this output cut off. Adding a space inbetween might cause problems, when a user wants to copy the string.

Is there any CSS trick which can fix that?

#### #2 - 2010-06-27 01:40 - Chris topher

Seems like adding the CSS definition

word-wrap: break-word;

can fix that.

#### #3 - 2010-06-27 01:42 - Chris topher

Should also be added for the same line in the part "Clean up".

#### #4 - 2010-11-03 23:20 - Chris topher

I cannot reproduce this problem anymore:

- For me the line is broken correctly: That happens either after a "-" or after a slash near the border of the div box.. Tested with FF and IE in TYPO3 4.4.3 and current trunk.

- In Clean up this line is no longer there.

Resolved, no change required.
