Subject:	Template Analyzer: Line numbers barely readable		
Description			
<p>The line numbers in the Template Analyzer have a very low contrast (white on light-grey) and are barely readable.</p> <p>I suggest setting the font color to dark-grey (#585858).</p> <p>See screenshots attached</p> <p>I don't know in which stylesheet to correct this, because they are merged - sorry. (issue imported from #M14847)</p>

The definitions you mean are:

```
pre.ts-hl .ts-linenum { background-color: #EEEEEE; }
```

```
[inherited from td.bgColor2]
```

```
.bgColor2 { color: #FFFFFF; }
```

PS: You can disable compression of BE-stylesheets in the Install Tool I think.

#2 - 2010-06-25 10:37 - Andy Grunwald

The File is located in "typo3/sysex/t3skin/stylesheet/visual/element_typoscript.css"

I've created a patch.

The color of the linenumbers is the same color for the line numbers in TYPO3 4.3.3

I've created a RFC on mailling list.
