<b>Sprint Focus:</b>					
<b>Subject:</b>	Starttime/endtime for pages and content is not taken into account when caching				
<b>Description</b>					
TYPO3 page cache ignores start and end time for content and pages. This causes problems related to caching: - if a content element has start time set, it will not be shown at that time until the page expires - if a content element has end time set, it will be shown after that time until the page expires - If a page has start time set, it will not be shown at the right time in menu on cached pages until cache for those pages expires - If a page has end time set, it will be shown in menu on cached pages after the end time causing 404 errors until cache for those pages expires  (issue imported from #M15116)

Dmitry, could you please see if this is what #20473 (now resolved; you took part in the discussion over there as well) resolves? It looks like from reading. If so, please close this one.
