Subject:	Javascript on tabs tt_content		
Description			
<p>when you disable all fields in the tab "general" of a tt_content for a be_user, this be_user is forced to click on the tab that appears by default to display the available fields</p> <p>this problem must certainly come from JS. For example, for the tab "TEXT": <a onclick="this.blur();</p> <p>DTM_activate("DTM-4cb321eb37","2", 0); return false;" href="#"> Text</p> <p>(issue imported from #M15183)</p>

Hi,

as this issue is very old. Does the problem still exists within newer versions of TYPO3 CMS (4.5 or 6.1)?
