Subject:	Old "website user" icon in page properties		
Description			
<p>In 4.4 there's a new icon for website users in the page tree. However, in the page properties where you can choose the icon of the folder, the old one is displayed (see attached screenshot).</p> <p>(issue imported from #M15249)</p>

History

this is correct and due to the fact, that tce forms is not able to deal with sprite icons, but fetches the icon directly from file system (old one)

We are all awaiting the TCE-Forms rewrite

#2 - 2010-07-29 20:46 - Chris topher

Can the old icon in the file system not be replaced by the new one?

#3 - 2013-05-15 16:40 - Riccardo De Contardi

still present in 6.1
