comment from core-list

Hey Steffen,

there was a reason why I added the TCEforms margin on the bottom: If you edit multiple records (e.g. through the list module) it's very hard to distinguish between the records PLUS the info on the right bottom of each record is superhard to guess, to which record it belongs.

So we need a better idea on how to solve this issue in general I think.

-1 for this solution.

All the best,

Benni.

Yey, Georg - why are you citing this?

IMHO we don't have to copy core-list threads into BT. Everybody who is wondering, why the bug isn't fixed yet, should have a look there.

Hi,

as this issue is very old. Does the problem still exists within newer versions of TYPO3 CMS (4.5 or 6.1)?
