

## Core - Bug # 23455

<b>Status:</b>	Closed	<b>Priority:</b>	Should have
<b>Author:</b>	Alex Tuveri	<b>Category:</b>	Database API
<b>Created:</b>	2010-08-26	<b>Assigned To:</b>	Georg Ringer
<b>Updated:</b>	2012-08-16	<b>Due date:</b>	
<b>TYPO3 Version:</b> 4.4			
<b>PHP Version:</b> 5.2			
<b>Complexity:</b>			
<b>Is Regression:</b>			
<b>Sprint Focus:</b>			
<b>Subject:</b> PHP Catchable Fatal on table 'be_users' during EXPORT			
<b>Description</b>			
<p>This error appears <b>always</b> and is reproducible. This happens (to me) exclusively when you go</p> <p>first I select the 'icon world' to edit the record of my site</p> <p>web &gt; list &gt; 'site title' (very root level...)</p> <p>then I clic the tablename 'be users' to work only with this table.</p> <p>I set (only) the field 'email' to export it.</p> <p>I attempted to extract some values from the table above and when I click the icon for the export, like in the issue #0015292, the following error appear:</p> <p>t3lib_error_Exception</p> <p>PHP Catchable Fatal Error: Argument 2 passed to t3lib_iconWorks::getSpritelconForRecord() must be an array, null given, called in /var/www/typo3_src-4.4.2/typo3/sysext/impexp/app/index.php on line 839 and defined in /var/www/typo3_src-4.4.2/t3lib/class.t3lib_iconworks.php line 735</p> <p>I can't export.</p> <p>The previous issue was closed by Ingo Renner; all seems to work with other tables but for this table the error comes on again, so i believe the issue related should be re-opens.</p> <p>(issue imported from #M15563)</p>
