

TYPO3.TYPO3CR - Bug # 24

Status:	Closed	Priority:	Should have
Author:	Robert Lemke	Category:	
Created:	2007-02-21	Assigned To:	Sebastian Kurfuerst
Updated:	2011-05-05	Due date:	
Subject:	Fix documentation in T3P_T3Lib_HashSet		
Description			
A bit of nitpicking here:			
Some of the phpDoc comments are lacking spaces:			
<pre>/** * @var array Holds stored objects */</pre>			
should be			
<pre>/** * @var array Holds stored objects */</pre>			
<ul style="list-style-type: none">- For classes please don't add an author name to the class documentation but do that for every single method. (See also http://5-0.dev.typo3.org/guide/bk01pt01ch02.html#id2543166)*Also check that all methods have parameters and return values documented (if the method doesn't return anything, write @return void).- Always add a description for parameter documentation.- Only use one line for parameter or return value documentation, no matter how long it gets- Please use <i>protected</i> instead of <i>private</i> unless you really want to disallow subclasses to access the properties- Make sure not to forget the public / protected / private keyword for functions- Don't start the file with an empty line- Make sure that the Id is expanded by your SVN client (see http://5-0.dev.typo3.org/guide/bk01pt01ch02.html)- A constructor must always be called "+construct"			

History

#1 - 2007-02-22 15:26 - Sebastian Kurfuerst

I'll take care of that.

#2 - 2007-02-22 15:55 - Sebastian Kurfuerst

- Status changed from New to Closed
- Sprint set to fixed

#3 - 2008-07-01 17:25 - Robert Lemke

- Target version deleted (1)
