

## Core - Bug # 24169

<b>Status:</b>	Closed	<b>Priority:</b>	Should have
<b>Author:</b>	Ralle Büchnitz	<b>Category:</b>	
<b>Created:</b>	2010-11-23	<b>Assigned To:</b>	Steffen Gebert
<b>Updated:</b>	2011-02-05	<b>Due date:</b>	
<b>TYPO3 Version:</b>	4.4		
<b>PHP Version:</b>	5.3		
<b>Complexity:</b>			
<b>Is Regression:</b>			
<b>Sprint Focus:</b>			
<b>Subject:</b>	Exception in Core during installation of new system extensions in 4.4		
<b>Description</b>			
<p>I get the following error in the install tool (Look additional information field).</p> <p>I was trying to install new system extensions like recycler. Actually the update seems to work, as the selected extensions are installed. Only the result page didn't show up.</p> <p>I assume the 'result'-page is trying to implode something that is not an array. Should be a no brainer, as the update works ;)</p> <p>Core: Exception handler (WEB): Uncaught TYPO3 Exception: #1: PHP Warning: implode() [<a &gt;function.implode&lt;="" 106<="" 6623="" a&gt;]:="" arguments="" class.t3lib_error_errorhandler.php="" class.tx_install.php="" error="" file="" href="function.implode" html="" in="" install="" invalid="" line="" mod="" p="" passed="" sysex="" t3lib="" t3lib_error_exception="" thrown="" typo3="" typo3_src-4.4.4=""  =""><p>09:29:54 . . . Sys! . . . Core: Exception handler (WEB): Uncaught TYPO3 Exception: #1: PHP Warning: implode() [<a &gt;function.implode&lt;="" 106<="" 6623="" a&gt;]:="" arguments="" class.t3lib_error_errorhandler.php="" class.tx_install.php="" error="" file="" href="function.implode" html="" in="" install="" invalid="" line="" mod="" p="" passed="" sysex="" t3lib="" t3lib_error_exception="" thrown="" typo3="" typo3_src-4.4.4=""  =""><p>(issue imported from #M16523)</p></a></p></a></p>

### History

#### #1 - 2010-11-23 13:22 - Chris topher

Could you please provide a patch for this issue?

#### #2 - 2010-11-24 17:38 - Ralle Büchnitz

I think the variable \$databaseQueries needs to be initialized as an array. Otherwise implode won't work, as it expects an array as second parameter.

So I created and added a patch for that.

For testing you need to take care of the following options during update in install tool:

```
if ($this->INSTALL['update']['showDatabaseQueries']) { ... }
```

This condition also prevents the "dirty" initialization of \$databaseQueries as an array. (See source)

#3 - 2011-02-05 11:16 - Steffen Gebert

Fixed with #24866
