Subject:	Refine new labels in pages and tt_content TCE forms		
Description			
<p>Some of the labels introduced in #23766 should be improved to make them proper english.</p> <p>The patch also resolves some inconsistencies and the long standing issue of double negated labels liek "No Search", "No Cache", "Hidden", and so on. You had to enable a checkbox to disable something which was very confusing.</p> <p>Mark Lehm and Jeff Segars, both native english speakers from the U.S., helped in big parts in getting the labels right. (issue imported from #M16857)</p>
