TYPO3.Flow - Bug # 2505

Status:	Resolved	**Priority:**	Must have
Author:	Christoph Blömer	**Category:**	Configuration
Created:	2009-01-22	**Assigned To:**	Robert Lemke
Updated:	2010-10-20	**Due date:**	
PHP Version:			
Has patch:			
Complexity:			
Affected Flow version:			
Subject:	RequestHandler can not be changed from the package configuration		
Description			

When trying to add or change the possible RequestHandler for a package, the new RequestHandler is not merged.
This is because the Package Manager is not initialized at that time.

A solution for changing the RequestHandler for a package from inside the package configuration is needed.

This is needed because of additional RequestMethods for the WebDAV protocol.
