

Core - Bug # 25103

Status:	Resolved	Priority:	Should have		
Author:	Christian Kuhn	Category:			
Created:	2011-02-19	Assigned To:	Christian Kuhn		
Updated:	2011-02-22	Due date:			
TYPO3 Version:	4.5				
PHP Version:	5.3				
Complexity:					
Is Regression:					
Sprint Focus:					
Subject:	Remove deprecated functions scheduled for removal in 4.6				
Description					
Attached patch will be committed to trunk in 72 hours if nobody objects.					
Type: cleanup					
BT:					
Mission:					
Remove all deprecated methods which are not used by core and logged by logDeprecatedFunction() and scheduled for removal in 4.6.					
Notes:					
<ul style="list-style-type: none">- I've check every method in this patch that it not used any more in core, so it should be safe to remove them.- There are still some occurrences where deprecated methods are used / inter weaved with core code. I've left them out and created issues for each (attached as child to umbrella issue #24954), so we can tackle them one by one.- Deprecations in extbase and fluid are not touched- The dbal changes are separated, I'll mail the patch to Xavier.					
(issue imported from #M17670)
