

Core - Task # 25331

Status:	Resolved	Priority:	Should have
Author:	Xavier Perseguers	Category:	Code Cleanup
Created:	2011-03-16	Assigned To:	
Updated:	2012-09-23	Due date:	
TYPO3 Version:	6.0		
PHP Version:			
Complexity:			
Sprint Focus:			
Subject:	Add visibility to member fields and methods		
Description	<p>There are still many "var" field declaration coming from PHP4 in Core classes. Goal is to change them either to public or (hopefully) to protected.</p> <p>The same applies for class methods.</p> <p>private may probably only be used for static classes, if used at all.</p> <p>(issue imported from #M17958)</p>
