

TYPO3.Flow - Bug # 25701

Status:	Closed	Priority:	Should have
Author:	Karsten Dambekalns	Category:	Object
Created:	2011-04-01	Assigned To:	
Updated:	2011-06-20	Due date:	
PHP Version:			
Has patch:			
Complexity:			
Affected Flow version:			
Subject:	Various injection errors in FLOW3		
Description			
I see these with everything on master as of right now and clean caches: <ul style="list-style-type: none">- Could not autowire property F3\FLOW3\AOP\Builder\ProxyClassBuilder::emptyConstructorInterceptorBuilder because the method parameter in injectEmptyConstructorInterceptorBuilder() contained no class type hint.- Could not autowire property F3\FLOW3\Command\CoreCommandController::signalSlotDispatcher because injectSignalSlotDispatcher() expects none instead of exactly 1 parameter.			
The EmptyConstructorInterceptorBuilder that is to be injectd in the first case does not exist anymore. But injectSignalSlotDispatcher() has one parameter.			
Is that a known issue?			

History

#1 - 2011-04-06 10:25 - Karsten Dambekalns

- % Done changed from 0 to 40

The first one has been solved by now (removed the code).

#2 - 2011-06-20 10:57 - Karsten Dambekalns

- Status changed from Needs Feedback to Closed

- Target version set to 1.0 beta 1

Haven't seen these for ages now, so it seems to have been solved.
