TYPO3.Flow - Bug # 25906

Status:	Resolved	Priority:	Must have
Author:	Karsten Dambekalns	Category:	Object
Created:	2011-04-12	Assigned To:	Karsten Dambekalns
Updated:	2011-05-05	Due date:	

PHP Version:	
Has patch:	
Complexity:	
Affected Flow version:	
Subject:	Injection with settings use breaks

Description

If configuring injection in Objects.yaml and making use of settings for a factory there the generated proxy is broken, because it assumes $this->settings exists.

It should use the static object container to fetch settings instead.

[BUGFIX] Injection with factory settings is usable again

If configuring injection in Objects.yaml and making use of settings for
a factory there, the generated proxy is broken, because it assumes
$this->settings exists.

Instead we use the static object container to fetch settings now.

Fixes: #25906

[BUGFIX] Fix constructor setting injection for singletons

Change I15f86cc651935dbe756f5b02a155b5ff14c5e668 missed one spot for
setting injection in the ProxyClassBuilder.

This change also adds some additional functional tests for setting
injection.
