Mailformplus MVC - Bug # 2615

Status:	Closed	**Priority:**	Should have
Author:	dermueller no-lastname-given	**Category:**	
Created:	2009-02-11	**Assigned To:**	
Updated:	2010-10-20	**Due date:**	
Subject:	PHP Fatal error: Call to undefined method tslib_cObj::getSingle()		

Description

PHP Fatal error: Call to undefined method tslib_cObj::getSingle()

/path/to/typo3/project/typo3conf/ext/th_mailformplus/pi1/class.tx_thmailformplus_pi1.php on line 958

Looks like tslib_cObj::getSingle() doesn't exist. May be it existed in earlier Typo3-Versions but definitively not in 4.2.6. Correct method name should be:

tslib_cObj::cObjGetSingle()

History

- Status changed from New to Closed

Thanks for the hint, but this is the bug tracker for mailformplusplus, not th_mailformplus.

I will fix that bug in th_mailformplus, but I close this issue, since it doesn't belong to this extension.
