Revision b98dda6c - 2011-05-24 20:11 - Rens Admiraal

[+FEATURE] (User Interface): Delete and Add Node in Selection Mode

We now re-use the Breadcrumb-Menu in the Frontend frame, when being in selection mode and hovering over an element.

Support for deleting content is implemented, support for adding new content is still in the works.

Furthermore, the BreadcrumbMenu is a bit refactored to have less dependencies to the Registry or other classes.

Plugins are now wrapped in a Container Div, this is needed to drag/drop them in the Frontend.

Resolves: #26713
