[BUGFIX] It's not possible to order by relation properties

setOrderings() of Doctrine\Query did not work on relation attributes.

Now using the getPropertynameWithAlias - method to implicit join needed relations.

Change-Id: Ib6d967ccc97ed64828bea8765edea5dd8c63aa0a

Resolves: #26885

a bit more on this issue: setOrderings() appends rootAlias . "proposedSessionType" to the orderBy-Clause. And apparently multi-dot-notation has been dropped shortly by doctrine:

<http://www.doctrine-project.org/projects/orm/2.1/docs/whats-new/en>

The only possibility I can see at the moment is detect "." in the argument, do a join for this table and rewrite the order by statement.

Has anyone problems with that? Should I try to prepare a patch?

Great! As there is already a method "getPropertyNameWithAlias" its extremely easy to fix this:

Just change

```
1 public function setOrderings(array $orderings) {
2     $this->orderings = $orderings;
3     $this->queryBuilder->resetDQLPart('orderBy');
4     foreach ($this->orderings AS $propertyName => $order) {
5         $this->queryBuilder->addOrderBy($this->queryBuilder->getRootAlias() . '.' . $propertyName, $order);
6     }
7 }
8 return $this;
9 }
```

to

```
1 public function setOrderings(array $orderings) {
2     $this->orderings = $orderings;
3     $this->queryBuilder->resetDQLPart('orderBy');
4     foreach ($this->orderings AS $propertyName => $order) {
5         $this->queryBuilder->addOrderBy($this->getPropertyNameWithAlias($propertyName), $order);
6     }
7     return $this;
8 }
```

- File *issue26885.patch* added

Prepared a patch using git, but as I have not yet signed the CLA I am not allowed to commit it to gerrit.

Hope it helps to speed things up. Have I really have to send a fax?
