

TYPO3.SwiftMailer - Bug # 27006

Status:	New	Priority:	Should have
Author:	Joachim P. Süß	Category:	
Created:	2011-05-24	Assigned To:	Joachim P. Süß
Updated:	2011-05-24	Due date:	

Subject: Timeout and/or memory overflow

Description

Using TYPO3 4.5.2 and tt_products 2.6.2 the orders (~35k) could not be sent because of these (or timeout) message:

Fatal error: Allowed memory size of 268435456 bytes exhausted (tried to allocate 4548863 bytes) in /srv/www/htdocs/web56/html/t3/typo3/contrib/swiftmailer/classes/Swift/Encoder/QpEncoder.php on line 192

In Accordance with Franz Holzinger it seems to be an error in swiftmailer. Several other EXT (e.g. mm_forum, directmail, sr_feuser_register, powermail) seems to have problems to, but mostly it could be resolved by setting [MAIL][substituteOldMailAPI] = 0

This also helps me in my case.

History

- Assigned To set to Joachim P. Süß

Some information about my server settings to complete the issue:

```
memory_limit 256M
upload_max_filesize 100M
post_max_size 100M
max_execution_time 90
max_input_time 90
```
