TYPO3.Flow - Bug # 27379

Status:	Needs Feedback	**Priority:**	Must have
Author:	Fernando Arconada	**Category:**	
Created:	2011-06-12	**Assigned To:**	
Updated:	2012-03-14	**Due date:**	
PHP Version:			
Has patch:	No		
Complexity:			
Affected Flow version: FLOW3 1.0.0			
Subject:	add check to clear the database at tearDown in testing		
Description			

Actually in testing mode the database is cleared completely in static public function tearDownAfterClass() at the end of testing. You dont always want this behaviour, so please add a check in settings to enable this

History

#1 - 2011-10-21 13:20 - Karsten Dambekalns

- Affected Flow version set to FLOW3 1.0.0

#2 - 2012-03-14 14:41 - Christian Müller

- Status changed from New to Needs Feedback

- Has patch set to No

For me the current behaviour makes sense, as you want a cleanly defined state for the DB in testing. What would be a use-case against that?
