

## TYPO3.Fluid - Bug # 27607

<b>Status:</b>	New	<b>Priority:</b>	Must have
<b>Author:</b>	Sebastian Kurfuerst	<b>Category:</b>	Core
<b>Created:</b>	2011-06-21	<b>Assigned To:</b>	
<b>Updated:</b>	2012-03-12	<b>Due date:</b>	
<b>Has patch:</b>	No		
<b>Affected Flow version:</b>	FLOW3 1.0.0		
<b>Subject:</b>	Make Fluid comparisons work when first element is STRING, second is NULL.		
<b>Description</b>			
Taken from <a href="https://review.typo3.org/#patch,unified,2824,2,Classes/Core/Parser/SyntaxTree/ViewHelperNode.php">https://review.typo3.org/#patch,unified,2824,2,Classes/Core/Parser/SyntaxTree/ViewHelperNode.php</a> :			
<i>I know it is not in the table on php.net, but the case " == NULL (\$operand1 being string and \$operand2 being NULL) should probably be comparable, too (and the PHP interpreter can of course compare them). What do you think?</i>			
I definitely agree, so we should implement this in Fluid v5 and provide tests for it, and then backport it.			

### History

**#1 - 2011-10-21 13:37 - Karsten Dambekalns**

- Affected Flow version set to FLOW3 1.0.0

**#2 - 2012-03-12 19:18 - Christian Müller**

This is basically a duplicate of #26665, right? Then one of them should maybe be closed?
