Sprint:	
PHP Version:	
Has patch:	
Complexity:	
Subject:	Rename $omitSignalInformation to $passSignalInformation

Description

A flag that comes with double negation by default should be avoided, thus we should invert the name and meaning here.

Note: do we actually need this? If we keep it, maybe make the signal information an array, so it's easier to amend in the future? Currently the simple string with classname and method name is a little limited in expressiveness.

Revision ea7b6619 - 2011-07-04 18:06 - Karsten Dambekalns

[!!!][TASK] Change $omitSignalInformation in SignalSlot

The name has been changed to $passSignalInformation and meaning as well
as default have been inverted. If you were not using the flag, nothing
changes, if you were, you need to flip the flag.

Change-Id: Ie878157242fb76117b27ee9d23a4dda67b4b8d0d
Resolves: #27613

But what other information could you imagine?

- Status changed from Needs Feedback to Accepted

Ok, we'll leave the signal information as is, and only rename the parameter.
