TYPO3.Fluid - Task # 27628

Status:	Resolved	**Priority:**	Should have
Author:	Bastian Waidelich	**Category:**	ViewHelpers
Created:	2011-06-21	**Assigned To:**	Bastian Waidelich
Updated:	2011-07-27	**Due date:**	
Has patch:	No		
Subject:	Split escape ViewHelper into dedicated format ViewHelpers		

Description

Currently the **f:escape** ViewHelper is targeted at a lot of different use cases (html escaping, url encoding, strip tags, ...).
That makes it harder to test and to extend.
Additionally the current implementation has the severe side-effect that the input value is not escaped at all, if the specified format is not supported.

[+TASK] Split escape ViewHelper into dedicated format ViewHelpers

This change creates a dedicated ViewHelper for all formats the
Escape ViewHelper supported.
This also marks the Escape ViewHelper deprecated and adds unit
tests for the new ViewHelpers.

Resolves #27628
