

TYPO3.ExtJS - Bug # 27663

Status:	Resolved	Priority:	Should have
Author:	Michael Klapper	Category:	ExtDirect
Created:	2011-06-23	Assigned To:	
Updated:	2012-07-13	Due date:	
Subject:	Fatal error class "F3\ExtJS\ExtDirect\Exception\InvalidExtRequestException" not found		
Description			
If an invalid request is send to the server like the following:			
Post data			
<pre>{"action":"Events_Controller_EventController","method":"update","data":[undefined],"type":"rpc","tid":4}</pre>			
Fatal error			
Fatal error: Class 'F3\ExtJS\ExtDirect\Exception\InvalidExtRequestException' not found in /var/www/events/Data/Temporary/Development/Cache/Code/FLOW3_Object_Classes/F3_ExtJS_ExtDirect_RequestBuilder_Original.php riginal.php on line 88			
Solution			
Just rename the exception <i>InvalidExtRequestException</i> into <i>InvalidExtDirectRequestException</i> since the name of the exception was changed.
