

TYPO3.Neos - Bug # 27795

Status:	Resolved	Priority:	Should have
Author:	Bastian Waidelich	Category:	
Created:	2011-07-01	Assigned To:	
Updated:	2011-09-01	Due date:	
Subject:	login returns 404 if no accounts are setup		
Description			
If no accounts can be found, the LoginController of the TYPO3 package currently forwards to a 'Backend\Setup' Controller, that no longer exists:			
<pre>if (\$this->accountRepository->countAll() === 0) { \$this->forward('index', 'Backend\Setup'); }</pre>			
This results in a 404 page not found error. Instead a message should be shown that explains how to setup initial data with the CLI.

[BUGFIX] Avoid redirect to non-existing setup

Currently login forwards the request to a non-existing controller "Backend\Setup" if no accounts exist.

This results in an 404 status.

This change removes the redirect and the obsolete routes.

Change-Id: lebbc09c9cabf5ee0ee3dd6990cbeaa4640a02005

Resolves: #27795
