TYPO3.Flow - Feature # 2816

Status:	Resolved	**Priority:**	Must have
Author:	Robert Lemke	**Category:**	MVC
Created:	2009-03-10	**Assigned To:**	Karsten Dambekalns
Updated:	2010-10-20	**Due date:**	

PHP Version:	
Has patch:	
Complexity:	
Subject:	Implement redirect to action
Description	

The Abstract Controller currently provides a method "redirect" which allows for redirecting to a specified URI. The more common requirement however is to redirect to a certain action / controller / package. Therefore redirect() should take the same (or at least similar) arguments like forward() and an additional method redirectToURI() should be implemented.

Associated revisions

Revision 7eefaecb - 2009-03-26 23:25 - Karsten Dambekalns

FLOW3:

- renamed redirect() to redirectToURI() in AbstractController
- implemented redirect() to behave like forward(), fixes #2816
- arguments to MVC requests are arrays now, no longer ArrayObject

Revision f802c0e4 - 2009-03-27 18:28 - Robert Lemke

- FLOW3: (MVC) Added 'delay' and 'statusCode' as arguments for the new redirect() action. Relates to #2816
- Fluid: Quickfix for the FormViewHelper so it at least doesn't cause fatal exceptions.
