<b>Complexity:</b>			
<b>Affected Flow version:</b>			
<b>Subject:</b>	Error after clearing temporary data		
<b>Description</b>			
After clearing temporary data in Production and calling the ".flow3" script to build up the cache I get the following error message:			
PHP Catchable fatal error: Argument 1 passed to TYPO3\FLOW3\Utility\Arrays::getValueByPath() must be an array, null given, called in /var/www/xyz/releases/20110721202831/Packages/Framework/TYPO3.FLOW3/Classes/Configuration/ConfigurationManager.php on line hp on line 161 and defined in /var/www/xyz/releases/20110721202831/Packages/Framework/TYPO3.FLOW3/Classes/Utility/Arrays.php on line 159			
I suspect the cached configuration being wrong in this case.
