Subject:	Viewhelper to escape quotes and remove newlines for Javascript		
Description			
<p>Removes linebreaks and escapes ' (or "). By default ' is replaced by \', but you can set the argument quote to say that all " should be replaced by \".</p> <p>As soon as I'm allowed to I will commit it to the repository.</p> <p>= Examples =</p> <pre><script type="text/javascript">var myString = '<f:jsString>this is a string
perhaps it has a linebreak
or it has a ' and would break the Javascript!</f:jsString>';</script> <output> <script type="text/javascript"> var myString = 'this is a string
perhaps it has a linebreak
or it has a \' and would break the Javascript!'; </script> </output><script type="text/javascript">var myString = "<f:jsString quote="\">this is a string and the " should be escaped</f:jsString>";</script> <output> <script type="text/javascript"> var myString = "this is a string and the \' should be escaped"; </script> </output></pre>
