Subject:	Class files in sub directories are not loaded		
Description			

Although the T3P_Core_Package finds class files in sub directories, they are not loaded by the T3P_Core_PackageClassLoader. This has an impact on the phpCRJackrabbit classes.

- Status changed from New to Closed

- Sprint set to fixed

(In r139) * Added test for T3P_Core_PackageClassLoader. Hopefully fixes #29.

  - Changed T3P_Core_ClassLoaderInterface: Now hands over an instance of TYPO3 as well.

I can confirm that Robert's patch fixes the issue.
