

## Core - Task # 29090

<b>Status:</b>	Closed	<b>Priority:</b>	Could have
<b>Author:</b>	Björn Pedersen	<b>Category:</b>	Content Rendering
<b>Created:</b>	2011-08-18	<b>Assigned To:</b>	
<b>Updated:</b>	2015-01-13	<b>Due date:</b>	
<b>TYPO3 Version:</b>	4.7		
<b>PHP Version:</b>			
<b>Complexity:</b>	hard		
<b>Sprint Focus:</b>			
<b>Subject:</b>	Clean up the rendering process.		
<b>Description</b>	<p>After looking at the comments for <a href="http://forge.typo3.org/issues/29041">http://forge.typo3.org/issues/29041</a> and the related code, it seems that the whole rendering process is rather convoluted and probably needs some stream-lining.</p> <p>Target probably will be 4.7 or 4.8.</p> <p>Main aim of this report is to serve as a TODO-reminder.</p>

### History

#### #1 - 2011-08-19 08:59 - Björn Pedersen

Some things which I stumbled upon:

- \$GLOBALS['TSFE']->INTincScript\_loadJSCode(); is only called in tslib\_pagegen::renderContentWithHeader and can only be called there as the variables that are set are unset there prior to any other use.

- There are too many vars where header content is collected.

Suggestion: use arrays to collect all header parts:

- css
- js
- meta
- links

#### #2 - 2011-08-30 19:02 - Andreas Wolf

- Category set to Content Rendering

- Complexity set to hard

#### #3 - 2012-03-05 17:37 - Steffen Ritter

- Target version deleted (4.7.0)

#### #4 - 2015-01-13 08:34 - Mathias Schreiber

- Status changed from New to Closed

- Remaining (hours) deleted (80.0)

This is the scope of the sprint focus of 7.2, so I'm closing this one down.
