Subject:	Query setOrdering doesn't work on relations

Description

TYPO3\FLOW3\Persistence\Doctrine\Query->setOrdering does not work on related fields:

Currently:

```
public function setOrderings(array $orderings) {
    $this->orderings = $orderings;
    $this->queryBuilder->resetDQLPart('orderBy');
    foreach ($this->orderings AS $propertyName => $order) {
        $this->queryBuilder->addOrderBy($this->queryBuilder->getRootAlias() . '.' . $propertyName, $order);
    }
    return $this;
}
```

Better:

```
public function setOrderings(array $orderings) {
    $this->orderings = $orderings;
    $this->queryBuilder->resetDQLPart('orderBy');
    foreach ($this->orderings AS $propertyName => $order) {
        $this->queryBuilder->addOrderBy($this->getPropertyNameWithAlias($propertyName), $order);
    }
    return $this;
}
```

History
