

## TYPO3.TYPO3CR - Task # 29538

<b>Status:</b>	Resolved	<b>Priority:</b>	Should have
<b>Author:</b>	Robert Lemke	<b>Category:</b>	Node handling
<b>Created:</b>	2011-09-07	<b>Assigned To:</b>	Robert Lemke
<b>Updated:</b>	2011-11-07	<b>Due date:</b>	
<b>Sprint:</b>			
<b>Subject:</b> Streamline isVisible() and isAccessible implementations			
<b>Description</b>			
<p>Currently Node::isVisible() will only consider if a Node is accessible or not, if the security context is already initialized. This is usually the case, but in the Node Routepart Handler it is not.</p> <p>We need to do some further investigation to see if FLOW3 could provide the necessary information already at that early stage.</p> <p>Maybe, isVisible() should only tell if the Node has any visibility modifiers set and access restrictions should be handled separately.</p>			

### History

#### #1 - 2011-09-07 13:15 - Bastian Waidelich

- Status changed from New to Accepted
- Assigned To set to Robert Lemke

This is **just** about to be fixed. Have a look at <https://review.typo3.org/#change,4806> and feel free to review!

#### #2 - 2011-11-07 10:29 - Sebastian Kurfuerst

- Status changed from Accepted to Resolved
- % Done changed from 0 to 100

resolved by Robert.
