<b>PHP Version:</b>			
<b>Has patch:</b>			
<b>Complexity:</b>			
<b>Affected Flow version:</b>			
<b>Subject:</b>	@ignorevalidation annotation expects parameter name without \$ (dollar sign)		
<b>Description</b>			
When using the @ignorevalidation annotation, the parameter name must be given without a dollar sign, which is extremely counter-intuitive.			
This was introduced with <a href="https://review.typo3.org/#change,816">https://review.typo3.org/#change,816</a>

[BUGFIX] Fix check against @ignorevalidation annotations

The check for argument names against @ignorevalidation annotations was done with the raw argument name, but the annotation is to be given with a leading dollar sign:

```
@ignorevalidation $fooBar
```

The check thus always failed.
