Has patch:			
Affected Flow version:			
Subject:	Create a LinkViewHelper for TYPO3 v4 Fluid		
Description			

Currently, Fluid for TYPO3 v4 does not have the possibility to create links to other pages in TYPO3.
This needs to be fixed urgently..

Something like <f3:link action="..." controller="..."></f3:link> should be possible.

Additionally, the functionality of TYPOLINK needs to be accessed as well (links to a given UID, PID; ...)
