Subject:	Display a hint to update database schema		
Description			
The kickstart commands which create new models should display a hint that a schema update is necessary.

[FEATURE] Display update schema reminder

After kickstarting a new action controller with

--generate-related or a new model, the command

now displays a hint that the database schema

needs to be updated manually.

Also adjusts the KickstartCommandController to

use outputLine() instead of echo and return.
