

TYPO3 Flow Base Distribution - Feature # 29910

Status:	Closed	Priority:	Should have
Author:	Martin Brüggemann	Category:	
Created:	2011-09-16	Assigned To:	Robert Lemke
Updated:	2011-09-16	Due date:	
Subject:	Frontend development toolbar		
Description			
<p>I like using the Symfony2 web profile toolbar. Reading FLOW3 logs during development feels stupid. There should be some basic debug-informations like Overall-Performance/simple Profiling, used Fluid-Templates, DQL-Queries and additional informations in the DEVELOPMENT-Frontend.</p>
