

## TYPO3.TypoScript - Bug # 30097

<b>Status:</b>	Closed	<b>Priority:</b>	Should have
<b>Author:</b>	Sebastian Kurfuerst	<b>Category:</b>	
<b>Created:</b>	2011-09-20	<b>Assigned To:</b>	
<b>Updated:</b>	2011-11-07	<b>Due date:</b>	
<b>Subject:</b>	Content must be renderable using a nodePath and a TypoScript object path		
<b>Description</b>			
<p>When rendering a nodePath, it would be cool if we could render it completely out-of-context. I.e. render just a single content element being part of a bigger page.</p> <p>However, the current TypoScript does not yet support rendering a single content element depending on the current object path; so it could look like:</p> <pre>./.../somePage/someSection/text?typoscriptObjectPath=page.sections.someSection.text</pre> <p>Greets, Sebastian</p>
