Complexity:			
Affected Flow version:			
Subject:	The ResourceStreamWrapper should also return the resource path for non-existing persistent resources		
Description			
For file upload, we need to make sure that the ResourceStreamWrapper also returns the path for a non-existing persistent resource; so one can do:			
<pre>file_put_contents('resource://2908293473.....3434', 'Some resource content');</pre>			
We need that for TYPO3 Image uploads to work.

[BUGFIX] Allow file creation through ResourceStreamWrapper

For file creation, we need to make sure that the ResourceStreamWrapper also returns the path for a non-existing persistent resource.

We need that e.g. for TYPO3 image uploads to work.
