Revision 578b580d - 2011-11-10 11:22 - Christian Müller

[BUGFIX] (CLI): CLI arguments should be usable with equals sign (=)

With this fix the last argument may use the equals sign (=) again to separate between argument name and value.

Besides writing an additional test case which reproduces the issue, the other test cases have been strengthened by replacing `assertEquals()` by `assertSame()`.
