TYPO3.Fluid - Bug # 3071

Status:	Resolved	**Priority:**	Should have
Author:	Niels Pardon	**Category:**	
Created:	2009-04-10	**Assigned To:**	Sebastian Kurfuerst
Updated:	2010-10-20	**Due date:**	
Has patch:			
Affected Flow version:			
Subject:	Allow objects implementing Iterator interface in each attribute of for view helper		
Description			

I am currently plaing a bit around with porting the extension seminars to extbase and fluid. We already have our own Mappers and Models based on oelib. We are using a class tx_oelib_List which implements PHP's Iterator interface for e.g. M:M relations. Would be great if we could use an object implementing the Iterator interface with Fluid's for view helper.

Hey,

so you mean the <f:for> ViewHelper, right?

Greets,
Sebastian

Hi,

should work already, can you confirm this?

Greets,
Sebastian
