

## Core - Bug # 30750

<b>Status:</b>	Closed	<b>Priority:</b>	Could have
<b>Author:</b>	Xavier Perseguers	<b>Category:</b>	Extension Manager
<b>Created:</b>	2011-10-10	<b>Assigned To:</b>	
<b>Updated:</b>	2014-12-04	<b>Due date:</b>	
<b>TYPO3 Version:</b>	4.6		
<b>PHP Version:</b>			
<b>Complexity:</b>	medium		
<b>Is Regression:</b>	No		
<b>Sprint Focus:</b>			
<b>Subject:</b>	EM should not suggest upgrade when it leads to conflict		
<b>Description</b>			
<p>EM always suggests to update to the latest version of an extension although it could lead to conflicts.</p> <p>When you install ks_sitemgr, you have this in the dependencies:</p> <pre>'constraints' =&gt; array(     'depends' =&gt; array(         'be_acl' =&gt; '1.3.0-1.3.99',     ),     'conflicts' =&gt; array(         'be_acl' =&gt; '1.4.0',     ),     'suggests' =&gt; array(), ),</pre> <p>Once you install version 1.3.3 of be_acl, then install ks_sitemgr, it still suggest to upgrade to the latest version (currently 1.4.3) instead of sticking to the 1.3 branch.</p>

### History

#### #1 - 2011-10-10 20:04 - Kay Strobach

please do not missunderstand me.

theoretically the following should be posible too:

```
'constraints' => array(
    'depends' => array(
        'be_acl' => '1.3.0-1.3.99, 1.4.1-1.4.8',
    ),
    'conflicts' => array(
        'be_acl' => '1.4.0',
    ),
    'suggests' => array(),
),
```

),

**#2 - 2014-12-04 19:46 - Mathias Schreiber**

- *Status changed from New to Closed*
- *Is Regression set to No*

will be tackled by composer in the future
