TYPO3.Flow - Bug # 31002

Status:	New	**Priority:**	Should have
Author:	Stephan Schuler	**Category:**	Reflection
Created:	2011-10-17	**Assigned To:**	
Updated:	2011-10-21	**Due date:**	
PHP Version:			
Has patch:			
Complexity:			
Affected Flow version: FLOW3 1.0.0			
Subject:	Generated __sleep method handles static properties as members.		
Description			

The __sleep method generated by
\TYPO3\FLOW3\Object\DependencyInjection\ProxyClassBuilder::buildSerializeRelatedEntitiesCode tries to handle "static" properties.
Since "$this->property" throws an exception where self::$property should be used, the PhpSession::close() method catches an
Exception "SplObjectStorage::serialize() must return a string or NULL".

I would suggest to treat static properties as transient by default.
