TYPO3.Flow - Task # 31128

Status:	Rejected	**Priority:**	Should have
Author:	Christian Müller	**Category:**	Utility
Created:	2011-10-20	**Assigned To:**	Christian Müller
Updated:	2011-10-20	**Due date:**	

Sprint:	
PHP Version:	
Has patch:	
Complexity:	
Subject:	We should only have one source of random bytes
Description	

Currently for generation of the persistent security token we use self made code in TYPO3.FLOW3/Classes/Utility/Algorithms.php but for example the CSRF token use the method from TYPO3.FLOW3/Resources/PHP/iSecurity/Security_Randomizer.php to generate random bytes.

We should unify that and use TYPO3\FLOW3\Utility\Algorithms::generateRandomBytes as wrapper for random byte creation.
