Status:	Resolved		**Priority:**	Should have
Author:	Marco Huber		**Category:**	
Created:	2011-10-21		**Assigned To:**	Karsten Dambekalns
Updated:	2011-10-25		**Due date:**	

PHP Version:	
Has patch:	No
Complexity:	
Affected Flow version: FLOW3 1.0.0	
Subject:	Scripts/migrate-annotations.php should work with symlinks
Description	

In an environment with symlinks (the Folder Packages/Framework is included by a symlink) the script doesn't find the packages under Packages/Application, because the script uses the absolute path to Scripts/migrate-annotations.php.

I extended the script so you can give a second parameter with an absolute path.
