TYPO3.Fluid - Bug # 31189

Status:	Resolved	**Priority:**	Should have
Author:	rottenrice no-lastname-given	**Category:**	ViewHelpers
Created:	2011-10-22	**Assigned To:**	Bastian Waidelich
Updated:	2012-07-30	**Due date:**	

Has patch:	No
Affected Flow version:	Git 1.0
Subject:	Make TextareaViewHelper HTML5 aware
Description	

1. the code example seems to be deprecated. "rows" and "cols" are required attributes but are not used in the example.

2. i suggest to use "rows" and "cols" as optional attributes. in html5 they are no longer tagged as required. furthermore you want to set the width and height of a textarea in css instead of using an html attribute ...
