Updated:	2011-11-22	**Due date:**	
Sprint:			
PHP Version:			
Has patch:	No		
Complexity:			
Subject:	Display line number of exception in CLI mode		
Description			

If an exception occurs in command line mode, only the file name but not the line number of the location causing the exception is displayed. For non-FLOW3 exceptions (like notices etc.) it's therefore difficult to find the actual root cause.
