

## TYPO3.Flow - Bug # 314

<b>Status:</b>	Resolved	<b>Priority:</b>	Should have
<b>Author:</b>	Robert Lemke	<b>Category:</b>	MVC
<b>Created:</b>	2008-02-15	<b>Assigned To:</b>	Robert Lemke
<b>Updated:</b>	2010-10-20	<b>Due date:</b>	
<b>PHP Version:</b>			
<b>Has patch:</b>			
<b>Complexity:</b>			
<b>Affected Flow version:</b>			
<b>Subject:</b>	Improve directory structure and naming for views in a package		
<b>Description</b>			
<p>Currently all views in a package are located in the Classes/View/ directory. The naming scheme for view classes is:</p> <p>T3_PackageKey_View_ActionName</p> <p>That's a mistake. The naming convention for views should have been:</p> <p>T3_PackageKey_View_ControllerName_ActionName</p> <p>Adapt the MVC view resolver and rename / move existing views to the new directory layout.</p>			

### Associated revisions

#### Revision 5d04d27a - 2008-02-15 12:32 - Robert Lemke

- FLOW3: (MVC) Improved the directory structure and naming of views. They now have the name of the controller in their own name. Fixes #314.
- Updated the views in other packages accordingly.
- Fixed whitespace and inline doc issues in classes I came across.
