TYPO3.Fluid - Bug # 31451

Status:	Closed	**Priority:**	Should have
Author:	Julian Wachholz	**Category:**	
Created:	2011-10-31	**Assigned To:**	Bastian Waidelich
Updated:	2012-02-23	**Due date:**	
Has patch:	No		
Affected Flow version:	Git master		
Subject:	Fluid XSD Generator uses removed method		

Description

When trying to generate an XSD to use with my Editor the following Exception gets thrown:

    Fatal error: Call to undefined method TYPO3\FLOW3\Object\ObjectManager::getRegisteredObjects() in
    TYPO3\Fluid\Service\AbstractGenerator.php:70

This method has either been removed or renamed, but unfortunately couldn't find out where it went.

(This could also be seen as task to update the Fluid controllers to the new Syntax, e.g. use @FLOW3\Inject instead of injectFoo methods)
