PHP Version:			
Has patch:	No

Affected Flow version: FLOW3 1.0.0			
Subject:	Reflection Service's getPropertyAnnotations() doesn't respect @var annotations		
Description			

When calling

getPropertyAnnotations() or

getPropertyAnnotation()

of \TYPO3\FLOW3\Reflection\ReflectionService

the @var annotations are omitted as if they weren't there.

In contrast, e.g. getPropertyTagValues() works for that.

That is correct. Annotations and tags are different things. We will clarify this in the documentation…
