

Core - Bug # 31589

Status:	Closed	Priority:	Must have		
Author:	Daniel Minder	Category:	Backend User Interface		
Created:	2011-11-04	Assigned To:			
Updated:	2014-07-10	Due date:			
TYPO3 Version:	4.5				
PHP Version:	5.3				
Complexity:					
Is Regression:	No				
Sprint Focus:					
Subject:	returnUrl in sysext filelist points to deprecated file_list.php				
Description					
<p>Go to the file manager, select a folder, and in the right frame click on the "new" button. Then create a new folder. Now, a new entry is appended to the deprecation log since typo3/file_list.php is called.</p> <p>The file list is rendered by typo3/sysext/filelist/mod1/file_list.php. There, the "new" button is created as a call to ""../..../file_newfolder.php", which is typo3/file_newfolder.php. The parameter list includes "returnUrl=file_list.php". When returning from file_newfolder, the file_list.php is called relatively to file_newfolder, which is typoe/file_list.php. And so, the deprecation log is triggered.</p> <p>Should the returnUrl simply include the path to the sysext?</p>

History

#1 - 2012-03-30 10:57 - Markus Kappe

Problem still exists in 4.5.14 and 4.6.7

#2 - 2014-03-15 13:51 - Markus Klein

- Status changed from New to Needs Feedback
- Is Regression set to No

Still an issue on 6.2?

#3 - 2014-07-10 14:56 - Alexander Opitz

- Status changed from Needs Feedback to Closed
